- Pre-commencement communications pursuant to Rule 13 e-4(c) under the Exchange Act (17 CFR 240.13 e-4(c))

Item 2.02 Results of Operations and Financial Condition

On Tuesday, October 31, 2006 the Company disseminated a press release, attached as Exhibit A, announcing the Company's operational results for the period September 30, 2006.

As part of the press release there is a bridge of the non-GAAP financial measurement of EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) to reported net income. It is shown below the disclosure of the GAAP figures for Operating income, Net income and Diluted earnings per share. This reconciliation of EBITDA to Net income is for the Three Months ended September 30, 2006 and September 30, 2005 and the Nine Months ended September 30, 2006 and September 30, 2005.

The Company believes, however, that EBITDA is an important term and concept because of its use by the professional investment community, including the Company's primary lenders. The Company believes the use of this Term is necessary to a proper understanding of the changes in the Company's earnings.

Item 9.01 Financial Statements and Exhibits

99.1 Press Release October 31, 2006

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

FOR IMMEDIATE RELEASE
TUESDAY, OCTOBER 31, 2006

A. M. CASTLE & CO. ANNOUNCES CONTINUED STRONG SALES AND EARNINGS PERFORMANCE

Declares a Quarterly Cash Dividend

FRANKLIN PARK, IL, OCTOBER 31st— A. M. Castle & Co. (AMEX: CAS), a global distributor of specialty metal and plastic products and services announced today continued strong customer demand and record sales and earnings performance for the quarter ended September 30, 2006.

Consolidated net sales for the third quarter ended September 30, 2006 were \$300.8 million, an increase of \$66.3 million, or 28.2% from the third quarter of 2005. Year-to-date consolidated net sales were \$855.6 million, an increase of \$123.9 million, or 16.9% from the same period of 2005.

“We continue to experience strong demand for our products and services,” stated Michael Goldberg, President and CEO of A. M. Castle. “Of the 28% increase in our third quarter revenues, 8% was attributable to volume, 12% to price increases and 8% to our acquisition of Transtar. Sales of nickel alloy products were particularly robust, with tonnage in that product family growing 60% compared to the third quarter of last year, reflecting the strong oil and gas market. Year-to-date revenues were 17% ahead of last year, of which 7% was attributable to volume, 7% to price and 3% to Transtar,” Goldberg continued.

On September 5, 2006 the Company announced its acquisition of Transtar Metals, a leading distributor of high-performance alloys to the aerospace and defense industries world-wide. Under the terms of the agreement signed August 12, 2006, the closing purchase price was \$173.3 million subject to final adjustments, including the assumption of \$1.0 million of foreign debt and \$0.6 million of capital leases. The purchase was funded with approximately \$30.0 million of available cash and \$142.0 million of debt financing.

Transtar Metals has eight operations strategically located in aerospace hubs in the U.S., the United Kingdom and France. Additionally, Transtar maintains a sales presence throughout Europe and the Far East. International sales are over one-third of Transtar’s total revenue stream. “We are very pleased with our acquisition of Transtar and our people are working together extremely well. The aerospace business continues to be strong,” commented Goldberg.

Net income applicable to common stock for the third quarter was \$15.3 million, or \$0.82 per diluted share, compared to \$10.1 million, or \$0.56 per diluted share in the third quarter of 2005. Year-to-date net income applicable to common stock was \$45.2 million, or \$2.45 per diluted share, compared to \$34.9 million, or \$1.93 per diluted share for the same period of 2005.

In its Metals segment the Company reported 30% sales growth for the third quarter and 18% on a year-to-date basis. The Transtar acquisition contributed 8% of that growth for the third quarter and 3% year-to-date. Increased volume was 9% and 8% for the third quarter and year-to-date, respectively. Material price increases accounted for the remainder of the sales growth.

Plastic segment sales increased 11% compared to the third quarter of 2005, and 9% on a year-to-date basis. Sales growth, excluding material price increases in this segment was 9% and 3% for the third quarter and year-to-date comparable periods, respectively.

“We will continue to look to invest in certain markets which we believe have higher growth potential and where we can leverage our expertise in

specialty products,” stated Goldberg. “Our acquisition of Transtar Metals is the cornerstone of our long-term strategic growth initiative in this regard. Including Transtar, we have about 30% of our total Company revenues aligned with the global aerospace and defense industry. It is our intent to invest in other industries that are in line with our strategic goals over the next few years, but we are very mindful of our balance sheet,” concluded Goldberg.

Larry Boik, Vice President and CFO of the Company commented, “Our balance sheet and cash position allowed us to move forward with the strategic acquisition of Transtar. The future cash earnings of the business will be used to reduce our debt and to provide similar flexibility to fund future strategic growth opportunities as they arise. We will remain diligent in managing the balance sheet through the business cycles as we execute our growth strategy.”

On October 26, 2006 the Company’s Board of Directors approved a quarterly cash dividend of 6 cents per share, payable on November 27, 2006 to shareholders of record at the close of business on November 10, 2006.

About A. M. Castle & Co.

Founded in 1890, A. M. Castle & Co. is a specialty metal and plastic products and services distributor, principally serving the producer durable equipment sector of the economy. Its customer base includes many Fortune 500 companies as well as thousands of medium and smaller-sized firms spread across a variety of industries. Within its core metals business, it specializes in the distribution of alloy and stainless steels; nickel alloys; aluminum and carbon. Through its subsidiary, Total Plastics, Inc., the Company also distributes a broad range of value-added industrial plastics. Together, Castle operates over 65 locations throughout North America and Europe. Its common stock is traded on the American and Chicago Stock Exchange under the ticker symbol "CAS".

Safe Harbor Statement / Regulation G Disclosure

This release may contain forward-looking statements relating to future financial results. Actual results may differ materially as a result of factors over which the Company has no control. These risk factors and additional information are included in the Company's reports on file with the Securities Exchange Commission.

The financial statements included in this release contain a non-GAAP disclosure, EBITDA, which consists of income before provision for income taxes plus depreciation and amortization, and interest expense (including discount on accounts receivable sold), less interest income. EBITDA is presented as a supplemental disclosure because this measure is widely used by the investment community for evaluation purposes and provides the reader with additional information in analyzing the Company's operating results. EBITDA should not be considered as an alternative to net income or any other item calculated in accordance with U.S. GAAP, or as an indicator of operating performance. Our definition of EBITDA used here may differ from that used by other companies. A reconciliation of EBITDA to net income is provided per U.S. Securities and Exchange Commission requirements.
